PROFESSIONAL SUMMARY

Final-year Computer Science student and **SAP Certified Back-End Developer – ABAP Cloud**, with hands-on experience building ABAP reports using SAP GUI and Eclipse ADT, and backend systems using **Java, Spring Boot, and MySQL**. Proficient in ABAP report development, RESTful API development, and **840+ verified DSA solutions**. Seeking a technical consulting role to deliver high-impact, customer-facing software solutions in cloud and enterprise environments.

EDUCATION

B.Tech in Computer Science Engineering 2023 – 2027
Sri Vasavi Engineering College, Tadepalligudem
CGPA: **8.8 / 10.0** — **Academic Rank: Top 3 in Semester 4**

TECHNICAL SKILLS

SAP ABAP	ABAP, SAP GUI, Eclipse (ABAP Development Tools), ALV Reports
Programming Languages	Java (Streams & Collections), C, Python, SQL
Backend Development	Spring Boot, Spring Data JPA, Hibernate, REST API
Frontend Development	React.js, HTML5, CSS3
Databases	MySQL, MongoDB
Tools & Platforms	Git, GitHub, Postman, Render, Vercel, Linux, Windows
Core CS	Data Structures & Algorithms, OOP, DBMS, Problem Solving

PROJECTS

Billing Document Report — SAP ABAP (SAP GUI) 2026
ABAP, SAP GUI, VBRK, VBRP, KNA1, MARA, T001W

- Developed a custom ABAP report (`ZSD_BILL_REPORT`) per a functional specification to consolidate Billing Document Header, Item, Customer, Material, and Plant data using SAP GUI.
- Retrieved data across 5 standard SAP tables using **INNER JOIN** and **FOR ALL ENTRIES**, with logic modularized into **subroutines**.
- Designed a selection screen with mandatory fields (Billing Document Number, Billing Date) and implemented input validations for master data and date ranges, displaying output using **ALV**.

Employee Management Report — SAP ABAP 2026
ABAP, Eclipse ADT, ALV

- Developed an Employee Management Report using SAP ABAP and Eclipse ADT to retrieve and display employee information based on user-defined selection criteria.
- Created a custom employee database table and defined relevant fields such as employee ID, name, department, salary, and location.
- Implemented data retrieval using ABAP `SELECT` statements and stored the results in internal tables.
- Designed selection-screen based filtering and basic input validation.
- Displayed employee information using ALV, providing a structured and user-friendly report output.

COMPETITIVE PROGRAMMING & PROBLEM SOLVING

GeeksforGeeks	Solved **532+** DSA problems with active daily coding streaks.
LeetCode	Solved **312+** problems across Arrays, Trees, Graphs and Sliding Window patterns.

CERTIFICATIONS

- **SAP Certified – Back-End Developer, ABAP Cloud** [Credly Badge]
  Validates ability to design and build ABAP Cloud-compliant back-end extensions using modern, object-oriented ABAP and released APIs.
- **Oracle Certified Associate – MySQL Implementation Professional**
  Validates expertise in MySQL database design, SQL querying, schema optimization, and implementation of relational data models in enterprise environments.
- **ServiceNow Certified System Administrator (CSA)**
  Demonstrates proficiency in configuring and administering the ServiceNow platform, including user management, workflow automation, ITSM modules, and platform customization.
- **HackerRank Certified – Java (Basic)**
  Validates core Java programming skills covering OOP principles, data types, control flow, exception handling, and standard library usage.

LEADERSHIP & ACTIVITIES

- **Team Lead** – Financial News Sentiment Analysis Project (team of 4) of mini project.
- **Tech Co-Lead** – GeeksforGeeks Student Chapter; organized 4+ coding contests and workshops for 150+ students.
- Conducted peer mentoring sessions on Data Structures, Algorithms and Java.
